Register Today! If you haven’t yet registered for the BIN AGM, please take a moment to do so. The date is Thursday, November 8th and registration is easy, just click on this link!

In addition to the opening keynote by Laura Haas, IBM Fellow and Director, Institute for Massive Data and Modeling, Aldmaden Research Center, we’ve lined up a number of in-depth presentations and demos of BIN projects and a great showing of posters and lightning presentations. We still need more though, so please send us your titles (poster or in-depth presentation) asap.

A Brush with Genius: Analytics Help Detect Art Fraud, Business Innovation from SAP, August 8th. There’s a great short video showing how three computer science teams all were able to detect a forged version of Wheatfield with a Reaper by Vincent Van Gogh. The technique also identified five known works falsely attributed to Pieter Brueghel the Elder.
